

Login User Story

As a user of this app I will be prompted for a username and password. If I do not have an existing account, I will be redirected to the sign up page (refer to "Sign up" User Story). I will also be able to login with my Facebook credential. If I enter my username and password combination correctly and click the login button, I will be redirected to the homepage of the web application (refer to "Homepage" User Story). If my username and password combination is not correct, when I click the login button, I will receive an error message and prompted to re-enter my username and password. If I forget my login credentials, I will be able to change my password by getting a password reset link sent to my email.
