

Login User Story Happy Path

- User clicks the login button on the navigation bar.
- User is redirected to the login page.
- User is required to enter their username and password.
- If the user enters username and password correctly, he or she will be redirected to the homepage, which shows a list of suggested concerts.
- If the user's username and password don't match, he or she will get an error message and be asked to re-enter the username and password.
- If the user forgets the password, he or she can click the reset password link, which will send a password reset email to the user.
- If the user doesn't have an account, he or she can click the signup button under the form, which will redirect him or her to the signup page.
- Or, the user can click the "Login via Google" or "Login via GitHub" button underneath.
- Then, the user will be redirected to Google or GitHub login page, which asks him or her to agree on certain access terms.
- After the user agrees the term, he or she will be required to log in to Google or GitHub.
- If the user logs in to Google or GitHub successfully, he or she will be redirected to the homepage.

- If the user doesn't enter the correct password or username to GitHub or Google, he or she will get an error message and ask him or her to re-enter the password and username.
